

Step Live Festival 2019

Bringing cultures, styles and people together through a celebration of dance

Performance brief

This year's theme for Step Live Festival is **Cohesion** – *uniting, bringing together and combining to form a collective whole.*

Choreography

- Gather different dance genres and styles of your choice, look at how these different styles can work together and allow these different movements to influence the work you make

Example:

<https://vimeo.com/275234710>

https://www.youtube.com/watch?v=wm98afryPf4&list=RDwm98afryPf4&start_radio=1&t=63

Music choices

- Find a piece of music that contrasts the (main) style of dance you're working in. Here are two examples

Example:

<https://vimeo.com/301833929>

<https://vimeo.com/279080323>

Costume Guidance

- Think about unified rather than uniform – how could you create a collective group without everyone wearing the same thing

Here are some examples of costumes that provide a unified look rather than everyone wearing the same thing.

- Think about how different colours might come together – we're keen to create a vibrant and celebratory day, select colours that demonstrate this for you.

This is an example of some colours
